SWEGD Bylaws
PREAMBLE

The Department of Software Engineering and Game Development (SWEGD) was formed in January of 2015 as a result of the consolidation of Southern Polytechnic State University and Kennesaw State University. Prior to January 2015, the faculty and staff of the SWEGD department resided in the Department of Computer Science and Software Engineering. The prior department had a rich and long history of teaching, scholarship, and service, and the new SWEGD department carries forward this tradition of student-centered excellence. In addition to implementing the Software Engineering (SWE) and Computer Game Design and Development (CGDD) teaching and research, the SWEGD department also offers courses that serve all computing students in the College of Computing and Software Engineering (CSE) and service courses to Engineering and other KSU students. Recognizing the department’s disciplines are far-reaching in their impact on society, the department actively seeks opportunities for internal and external collaboration for teaching, service, and research.

The Department of Software Engineering and Game Development is a unit of the College of Computing and Software Engineering at Kennesaw State University.

These bylaws provide a plan for governance and procedures for operation of the Department of Software Engineering and Game Development. These bylaws were initially adopted by the faculty of the Department of Software Engineering and Game Development on March 20, 2015. The following is the most recent version of the SWEGD department bylaws.

ARTICLE VI. Guidelines for Assessment

Section 1. All faculty members are responsible for assessment data collection and reporting generated from all of the classes that they teach each semester. This is considered a normal part of a faculty member’s teaching responsibilities ("teaching" for creating the data collection opportunity, and actually collating and reporting the data). Current assessment instruments include FCARs and Digital Measures.

Section 2. The ABET accrediting body publishes the following guidance:

“ABET accreditation criteria mandate that program faculty focus on continuous improvement using documented processes for assessing and evaluating attainment of student outcomes.” (ABET Module 4: Quality Improvement of Student Learning)

Section 3. The department assesses each program through evaluating the achievement of course learning outcomes that are assessment indicators of program outcomes. Stated another way, each course will assess the student level of achievement of course learning outcomes.

a) Course learning outcomes are defined as such in order to support the declared program learning outcomes.
b) Course learning outcomes are stated in the syllabi for each course, and cross-indexed in a program-course learning outcomes mapping document. This document shows for each program learning outcome, which courses will assess that program outcome. Each course contributes to and assesses only a subset of the program learning outcomes. Each course contributes to a different set of program outcomes.
c) It is NOT a requirement to assess all the learning outcomes for each course each semester. The program coordinator and Assistant Chair will determine which outcomes will be assessed in each course, following a planned schedule that support the overall program assessment goals, in coordination with the department faculty.

d) Data on student performance will be captured in a standardized form, and reported to the assessment coordinator (Associate/Assistant Chair) at the end of every term. By KSU guidance, faculty are required to provide assessment data as part of the university’s requirements to maintain SACS accreditation as an expectation on their FPA and for Annual Review evaluation.

Section 4. The department assesses each program through qualitative measures. These include
   a) Senior/graduating student surveys every semester
   b) Surveys sent to alumni and IAB/industry once a year

The results of these surveys are reviewed by the faculty in the department once per year during the annual assessment process and used to adjust the program learning outcomes and the student objectives.

The department chair in coordination with the program coordinators handles these surveys. The results of this assessment process are documented as part of the ABET and SACS assessment process.

ARTICLE VII. Guidelines for Faculty Searches (in accordance with hiring policies found on Faculty Affairs website)

Section 1. Search Committee Designation
   a) After discussion with the department faculty (either as a whole and/or the strategic planning committee) about which discipline to stipulate in the advertisement for a given faculty position, and in consultation with the dean, a search committee that includes at least three permanent full-time faculty shall be appointed by the Department Chair.
   b) The Department Chair shall appoint a Chair of the search committee. The search committee will follow procedures found on the Faculty Affairs website. The Department Chair shall provide the committee with specific guidelines about conducting searches.

Section 2. Potential Conflicts of Interest.
Following the closing date, and after initial review of the files of all qualified applicants, if an appointed committee member discovers that one or more applicants is a person or persons with whom the member has had a prior close personal relationship, s/he should make this known to the committee and the Department Chair and discuss whether it is appropriate to be replaced on the committee, in order to avoid the appearance of a conflict of interest.
ARTICLE VIII. Summer Session Teaching

The following guidelines shall be used to determine priority for teaching during summer session.

Section 1. Through written solicitation, the Department Chair shall determine which faculty members wish to teach during summer sessions.

Section 2. The following ranked criteria shall be considered when making teaching assignments during summer sessions.
   a.) Course demand and faculty specialization.
   b.) Budget conditions.
   c.) Initial preference will be given to
      a. Associate/Assistant Chair
      b. Program Coordinator(s)
   d.) Preference will then be given to full-time, tenure-track faculty.
   e.) Possession of the terminal degree appropriate to the position of the faculty member.
   f.) When additional course sections are available after each faculty member who desires to teach has received one section, additional assignments shall be made using the criteria listed above.

ARTICLE IX. Amendments to Bylaws

Amendments to these Bylaws shall be submitted in writing to the Department Chair of SWEGD and shall be approved by simple majority vote at a SWEGD Department faculty meeting at which a quorum of voting faculty are present.

ARTICLE X. Relationship to Other Governing Rules and Regulations
