College of Computing & Software Engineering
What to sign up for Fall

All Majors

• ENGL 1101
• Math 111(?) – we emailed your @students.kennesaw.edu with this information
• POLS 1101 or HIST 1100, 1111 or 1112
• General Ed. Course
• CSE course – more to come on this
Programming Classes

• CSE 1321/L and 1322/L require a ‘B’ or better
• You only get 2 attempts - withdrawals count as an attempt.
• CSE Tutoring lab available on 2nd floor of Atrium
• CSE 1300 is an optional, unrequired class that is highly recommended for those new or unfamiliar with programming.

This can fulfill a free elective requirement and increase chances of achieving B grades in CSE 1321/L.

• We sent an email with a placement test link. If you didn't get an e-mail and you want to take the test, please e-mail ccseadvising@kennesaw.edu
Before you register for CSE 1321/L

• To prevent prerequisite errors, students will need to register for MATH 1112/MATH 1113/MATH 1190 prior to CSE 1321/L.
• You will have to register for both the lecture and lab at the same time, or a prereq error will occur.
• If you place into MATH 1111 and still want to take CSE 1321/L the same semester, you can sign up for CSE 1300 alongside MATH 1111.
Optimal Course Load & Time Management

**TIME 101:** Credits per semester \( \times 2 \)\(^*\) = hours of study time per week

15 credits \( \times 2 = 30 \) hours of study time > 45 hours of time per week devoted to college in and out of class i.e. full-time student

\(^*\) STEM lab courses, math courses and programming courses (CSE 1321/L, CSE 1322/L) may necessitate more hours per week of independent work and tutoring

Sleep, self-care, work, fun, social events, etc....also require time.
AP & Dual Enrollment Credits

List of qualifying AP classes & scores:
• http://transfer.kennesaw.edu/credit-exam/index.php
• Request electronic submission of official AP scores from CollegeBoard.org to KSU
• Follow up with registrar's office registrar@Kennesaw.edu
• If scores aren't in yet, sign up for the class you think you will get credit for anyways and change it later once the credit is in (schedule changes can be made until August 11th, then during add/drop week)
• If you do have scores, pull them up on your computer to have us look and you take a screenshot, then send that to ccseadvising@kennesaw.edu by using your @students.kennesaw.edu account

Dual Enrollment – Review if credit is in place by looking at DegreeWorks
• If your Dual Enrollment credit isn’t in the system, send transcript to KSU. Pull up unofficial one for us to review.

eCore options

http://ecore.kennesaw.edu

• 100% Online course option (proctored final exam)
• Some general education class options
• Review Ecore/KSU course equivalency
• Complete eCore orientation (at ecore.kennesaw.edu)
• Cheaper tuition
• Identify these courses by 'G' in section number – e.g., ENGL 1101/01G
Steps to register for classes

How to find classes:

• Log in to Owl Express (http://owlexpress.kennesaw.edu)
• Once you are logged to Owl Express, you will then right click on a link to open tabs in new windows so that you have two windows open side by side.
• Click “Registration”
Steps to register for classes...Cont’d

• Select the ‘Registration tab’ in both windows. In one of your windows you will select ‘Class Registration (Add or Drop Classes).’ In the second window, select ‘Class Schedule Search’
Steps to register for classes...Cont’d

• Select “Fall Semester 2019” and click submit

• Tab 1: Class schedule search

• Tab 2: Class registration
Steps to register for classes...Cont’d

- Example: MATH course a student could be placed into
- In tab 1 select the subject and type the course number.
- Click “class search”
Steps to register for classes...Cont’d

• Here is what is displayed after selecting “class search”
• Class details such as time, day, campus, instructional method, and instructor of the course.

NOTE: If you have campus or travel limitations, please be sure that you pay attention to the campus that the course is offered on (Marietta, Kennesaw, etc).
Steps to register for classes...Cont’d

• To register for a selected section of a course, copy the “CRN” and paste the CRN number into the boxes under “add classes worksheet” located on the second tab.

• If you have successfully registered for a course, you will see “web registered”.
Steps to register for classes...Cont’d

• To View Your Fall 2019 Schedule:
• Click “Registration”
• Click “Display Your Class Schedule and Grades”
How to register for CSE 1321/L

- Select CRN for CSE lecture and CSE lab, then enter these numbers side by side under the section "add classes worksheet." Click the submit button once CRNs' are entered.
