BlackRock is a global investment manager and technology provider who helps investors of all types achieve their financial goals. Our purpose is to help more and more people experience financial well-being. We are dedicated to helping our clients, employees, shareholders and communities achieve financial security, financial mobility, and financial freedom. BlackRock offers a range of solutions for institutions, financial professionals and individuals from all walks of life. From shop assistants in your local stores to national organizations and non-profits, BlackRock has helped people take control of their financial security for more than 30 years.

BLACKROCK LECTURE SERIES:

A DEEP DIVE INTO BlackRock’s TECHNOLOGY ECOSYSTEM

Join us for the first meeting in the BlackRock Lecture Series! BlackRock’s tech leaders and CCSE professor, Dr. Ying Xie will discuss Aladdin, BlackRock’s technology utilized in investment decisions, and give advice for entering the workforce!

Wednesday, February 24th
6:00-7:00PM
Microsoft Teams (link will be provided)
