The College of Computing and Software Engineering (CCSE) is committed to high quality instruction with strong support for student learning. The college seeks to build a comfortable, safe, collegial, respectful, and stimulating environment for all. Interactions between faculty, students, and staff should be professional and respectful. Academic integrity is a critical aspect of student learning in the computing environment, and faculty will determine when student collaboration is allowed. Each course offered by the College will be structured in the knowledge that timely feedback is essential to learning and should be conducted in a supportive manner that allows students to realize where they have erred, understand the correct approaches, and know how to grow in their ability to succeed. Given the importance of experimentation, iterative improvement, and exploration as vital components to learning, CCSE faculty and staff will create a supportive environment that recognizes that students are building confidence and developing their appropriate competencies in computing, communication, and analytical thinking.

Definitions: unit – schools and departments in the college; unit leader – department chair or school director.

1) Syllabi
The Syllabi must be submitted electronically to the unit office by the end of the first week of classes. The content must comply with all university requirements. Faculty Handbook 2.13 http://catalog.kennesaw.edu/. A syllabus checklist and a syllabus template and samples are provided at https://cia.kennesaw.edu/instructional-resources/syllabus-policy.php/. Additionally, the syllabi must include:

- Contact information – official KSU email
- Office hours (including virtual hours) are updated each semester
- Response time to students’ emails - NO MORE than two business days, and clearly define weekend and holiday/break coverage
- Mode of instruction (traditional, online, hybrid, primary/hybrid-secondary)
- Course Student Learning Outcomes must be approved by the unit
- Any pertinent lab information
- Approved by the unit textbook information (if applicable)
- How the course grade will be determined
- Grade appeals policy
- Tentative list of topics and tentative weekly schedule with the tentative assessment deadlines. (Please feel free to include “subject to change” in terms of dates or deadlines to allow for flexibility)
- System and hardware/software requirements
- First, last, and withdrawal date for the term
• Information on proctored exams if applicable
• Calendar – holidays, breaks, and final exam date (if applicable)
• Information for Withdrawal dates - To make an informed decision, students in all courses must receive necessary and sufficient performance evaluation information prior to the last day to withdraw from classes
• Academic Integrity Policy or link to the policy
• Information about Course Evaluation and steps to complete
• Reasonable Accommodation
• Student Privacy (FERPA) or link to the policy
• KSU sexual Misconduct Policy & Ethics Statement
• KSU Student Resources or link to the list

2) **Office hours Fall/Spring/Summer.** The office hours must be communicated to students in the syllabi, d2l course shell, office door, and to the unit for it to be posted on the website.
   • Full-time faculty: as defined in the unit workload policy and Faculty Performance Agreement
   • Part-time faculty with f-2-f and/or hybrid courses: 1.5 hours per week for each 3-credit hour course with one hour per week on campus minimum
   • Part-time with only fully online courses: 1.5 virtual hours per week for each 3-credit hour course with available on campus hours by appointment
   • Program coordinators: additional hours as defined in the unit workload policy and Faculty Performance Agreement
   • Assistant chairs: additional hours as defined in the unit workload policy and Faculty Performance Agreement

3) **Return graded work** to students within 2 weeks of due date. If any course assessment requires a longer time to grade, this time should be stated in the course syllabus.

4) **Email should be responded to within** 48 hours during workdays, and clearly define weekend and holiday/semester break coverage. Students and faculty should use only KSU official or D2L emails for communication.

5) **Attendance at graduation events:**
   • Part-time faculty: no requirement
   • Full-time faculty: attend at least two graduation ceremonies per calendar year
     For undergraduate faculty: one of the ceremonies must be an undergraduate ceremony
     For graduate faculty: one of the ceremonies must be a graduate ceremony
   • The unit leader needs to be informed if the faculty will not be attending

6) **Full-Time Faculty websites**
   To help students to learn more about your teaching and to increase your research visibility to external audience, all CCSE faculty are encouraged to have a public website in addition to posting information on D2L.
• Post information about your teaching and research on faculty website
  (http://ksuweb.kennesaw.edu/~netid/ or http://facultyweb.kennesaw.edu/netid/) for each
course you teach each semester
• Your contact information
• Your office hours
• Brief overview of your scholarship interest
• Abstracts of recent publications and research profiles such as Google Scholar

7) **Full-Time Faculty: “Teaching Breadth” and Planning Requirement**
Faculty members are expected to provide flexibility in course assignments needed to support
our degree programs and meet the needs of our students. The faculty will provide a list of
preferred teaching courses and review this list annually as part of the FPA process. This list
also becomes an input to the unit scheduling process. Faculty will have an opportunity to
review and provide feedback on drafting teaching schedules. The specific number of courses
and categories of courses (undergraduate, graduate, online) will be determined by the unit
leader. Number of assigned courses per semester is defined in the workload policy and
Faculty Performance Agreement.

8) **Professionalism towards Students**
Faculty members should be supportive of their students, take their questions seriously, and
respond politely and in a helpful and timely manner in person, phone, MS Teams, or email. Care
while communicating with students is essential. Reports from students, colleagues and
supervisors of unprofessional behavior will be taken seriously and will be addressed with the
faculty member.

9) **Course Content**
All courses must follow unit approved syllabus including course outcomes, tentative schedule of
topics, and textbook(s) (if required).
Regardless of the mode of delivery, a D2L course shell for each section of a course must
include:
- Welcome page
- Syllabus
- Calendar
- Grade book
- Course outcomes set in the D2L competencies tool
  https://ccse.kennesaw.edu/faculty-
  resources/forms-documents/D2L%20Competency%20Instructions.pdf
Any assessment that will be used for the support of the course outcomes must be in the D2L
section with the grade for the assessment posted in D2L. The course learning outcomes must be
linked to the assessments used in the Faculty Course Assessment Report (FCAR) using D2L
competencies tool.

In addition, if a course was developed and approved for online delivery, faculty MUST use the
approved course for online and hybrid offerings. Please check with the unit leader about who
developed the course so you may import the content into your course shell. Faculty members using an online course developed by another faculty member cannot change the course more than 10% (otherwise, the course will have to be re-reviewed by KSU). Course content (e.g., video lectures, audio, other learning content) in the master course is expected to be used in good faith and adapted over time in a manner that does not change the structure or organization of the course. Differences between asynchronous and synchronous learning may be found at: https://dli.kennesaw.edu/onestopshop/newtoteachonline/asynchronous_online_course.php

10) All faculty members (including part time) must meet all classes and meetings as scheduled (days, time, modality, and location).
Class cancellation: For health-related or other emergencies, the unit chair/director office must be notified as soon as possible via phone and/or email before a regularly scheduled class, office hours, or a meeting. Full-time faculty must use sick leave to cover this time and report the leave via the OneUSG MSS System. All faculty travel must follow the university travel policy. Any content of missed class must be covered so students may learn all the necessary information from the course. The faculty member must have chair's approval to change modality, use a substitute instructor or a graduate assistant during a regular scheduled lecture or lab hours and provide a plan for content coverage prior to planned class cancellation.

11) Timesheets
All part time faculty must report time worked each month using OneUSG timesheet. Failure to report the time may result in not hiring the part-time faculty member in the future.

12) Course Assessment
All faculty members are responsible for assessment, data collection, and report generation from all the classes that they teach each semester. FCAR approved by the unit and student sample work, if required for the current semester, are due at the unit office by the end of the second week of the next semester. Spring course assessment forms are due at the end of the second week in June. All faculty members are required to fulfill their assessment responsibilities as specified in their unit’s assessment plan.

Not fulfilling these obligations may lead to a rating of “not meeting” teaching expectations in annual review and may result in a lower priority on summer class teaching schedule. Faculty and staff are expected to read all CCSE and KSU policies and keep up to date with required changes.

Revision schedule: As needed
Approved by CCSE faculty 2/21/2022
